

Title: Statistics and Probability
Code: 20136032
Lecturer: Prof. Zvi Artstein

Course Schedule and Location

Year: 2013
Semester: Second Semester
Day & Time & Location: Tuesday, 1215-1445, FGS, Rm A
First Lecture: 19/03/2013
No. of planned sessions: 14

Field of Study, Course Type and Credit Points:

Rothschild-Weizmann Program; Obligatory; 3.00 points
For students in the Rothschild-Weizmann program **only**

Language of Instruction: Hebrew

Attendance: Obligatory, no laptops during the lecture !

Grade Type: Numerical (out of 100) weakly assignment 10%, Final Exam 90%

**Number of hours an ordinary student is expected to spend
weekly on independent study, homework etc. related to the course: 8**

Syllabus

Basic notions in Statistical Analysis and Probability Theory will be covered, in particular modeling issues, statistical inference and decision theory, with an emphasis on common fallacies of intuitive judgment in daily applications.
